Thanks Claire: I would appreciate your help (again). I still have the presentation you helped me with last fall, so we can start with that and add any new stuff from the JRA effort. Exemption 5: DeliberativeExemption 5: Deliberative

I'll likely be tied up with other work this week, but let's touch base next week. Thanks! -Jim

Jim,

I'm happy to help you prepare for this panel. By that time I will have attended the first 2-day workshop (April 9-10) for the Joint Regional Agreement (JRA) and give you some talking points about EPA's role in that project, where it is headed, etc.

Makes sense, Jim. Glad you can cover. Want to make sure you have info. on the joint regional framework before then. Thanks.

**Subject:** Presentation to Treasure Valley Partnership, April 22, 2013

Good morning, Jim, Barry and Bobby.

It is my pleasure to invite you to participate in a presentation to the Treasure Valley Partnership (Partnership). As you recall, the Treasure Valley Partnership is comprised primarily of the mayors of the municipalities in the Boise River Basin. Their website explains their mission: <http://treasurevalleypartners.org/>

The Water Quality Summit hosted by the Partnership on November 8, 2012 in the Idaho Center was attended by over 100 people and was a huge success. Their executive Director, Mr. Bill Larsen, would like to follow up on this success and has invited Integrated Watershed Solutions, Inc. to coordinate a panel on improving water quality in the Boise River. The topic we intend to present is "**Water Quality Trading as a Driver for the Swimmable Boise River Campaign.**" In accordance with discussions with Bill, the invited speakers are you three and myself. In addition we have invited Gary Grimm and Katy Flanagan of Mountain Visions to assemble an audio-visual presentation to kick off our panel.

Bill is assigning about an hour to our panel, from 11:30 am until about 12:30 pm on Monday April 22nd (the discussion phase might extend beyond that time). Please advise if you are able to attend or not -- I will be coordinating the panel and will find a replacement if a speaker cannot attend. I anticipate that each speaker will

present for about 10 minutes and we will allow plenty of time for discussion. The panel will be similar to the panel last fall when Jim, Barry and I presented to the Idaho Water Users Association. Bobby, if you can attend as well, your presentation of a update on your regional Water Quality Trading activities would add very worthwhile depth. This panel allows us to take a step beyond the Partnership's November 2012 Water Quality Summit.

I envision conducting a telephonic meeting including you three plus Bill and myself later this week -- perhaps Friday -- to discuss integration of our presentations. Does this work for you?

Regards,

Dave
